I. Hardware — Seismic / Kinetic / Ecclesiastical / Celestial Telemetry

Vector 1 — Middle East Kinetic — CENTCOM: 13 consecutive nights of strikes through July 24-25 per Defcon Level / Reuters, 11th consecutive night July 21 marked, Iranian ministry reported pause after 13 nights July 25. July 26 22:30 ET blockade enforcement active - 12 vessels redirected, 2 boarded, 1 disabled per CENTCOM India News Stream. Targeting Iranian maritime capabilities missile drone storage coastal surveillance air defense. Source lock: centcom.mil - 10:15 p.m. ET July 13 strikes on coastal defense systems, missile and drone sites, maritime capabilities; July 14 4 p.m. ET blockade resumption order.

Vector 1-A — Eastern Flank Kinetic: Baseline locked per V233 Convergence Matrix. Limited operations Novopavlivka July 3 baseline. Currently Level 1 GREEN stable. No Level 2 trigger this window. Dual-theater separation maintained per SUPPLEMENTAL RECORD 158.

Vector 2 — Economic / Resource — Hormuz Divergence / AIS Blackout / JMIC SEVERE: Vessels switching off AIS - publicly available tracking websites no longer capture full picture because captains disabling AIS transponders. In accordance with JMIC Advisory 015-26, announcement and initiation of U.S. naval blockade effective 14 July 2026 at 2000Z further elevated regional risk. Regional threat level remained SEVERE. War-risk insurance 7.5 to 10 percent hull value vs pre-war 1-3 percent. AIS-derived counts in single-digit range. Vessels waiting at anchor around Fujairah, Khor Fakkan. Severe GPS interference and AIS anomalies reported.

Vector 3 — Ecclesiastical Infrastructure: Verified November 2-6, 2026 Brit Olam Congress Seven Arches Hotel Mount of Olives facing Temple + Beit HaNasi official

state reception at President residence - Source: noahideworldcenter.org/pages/congress. Early-bird closes July 30, 2026 - $1950 per participant. Five Pillars: Positive Identity, Structured Membership, Ritual & Cycle, Authority, Local & Global. Program: The Books, The Charter, Unified Syllabus, First International Beit Din, Regional Councils, Financial Foundation. Two Acts: Founding Charter Signing + Received at Beit HaNasi.

Vector 4 — Celestial Infrastructure: Coronal hole high-speed stream approaching Earth - large recurring coronal hole opening allowing high-speed solar wind to flow per NASA/NOAA, weak flanking CME influence expected July 27 lingering July 28 per NOAA SWPC WSA-ENLIL model. G1-class geomagnetic storm chance 45% July 27 as high-speed stream arrives. CIR compression region leading CH HSS with density enhancement + IMF increase.
